

July 2017

For the third year in a row Lorton didn't hold a 4th of July parade. However, the COB recommended we participate in the Dale City parade instead. We thought it was a great idea and got our reservations in just in time. See the picture below of our motley crew (who looked much better when this was taken before the parade – afterwards, due to the heat and the length of the parade, they were rather bedraggled).

We also put a bit of advertising in the parade program. There were a number of submariners in the onlookers so we're hoping they will consider joining USSVI and our Base.

If you rode submarines, any class, at any time in the history of the United States Submarine Force and were designated "Qualified in Submarines" then
